SEBASTIAN ARCABASCIO, A.I.A.

Project Architect

Profile

Sebastian Arcabascio attended Lawrence Technological University from 1996-2001 and graduated with Honors in Construction Documents and a Minor in AutoCAD Software. He attended a Design Studio Exchange with Lawrence Technological University in Paris France in the summer of 2000, in that time he was associated with several firms in Michigan including Harley Ellis Devereaux, ENGA and Loizion Architects. After deciding to move into Freelance Architecture and establish Arcabascio Studios PC in 2003 he moved to Barcelona Spain to have a one year internship with an English based firm to study Antoni Gaudi's Architecture. Once he completed his internship he relocated to California where he consulted with several firms including Holt Architects, WWCOT + Pearson Architects, Inc. In the summer of 2010 he returned to Michigan and reestablished connections with former friends + colleagues. In January 2011, he was hired by Damian Farrell Design Group and working again with friend, former colleague + LTU Alumna Jenny Stevens. He has extensive knowledge in French Architecture, Spanish or Catalan Architecture + Desert Modern Architecture.

AREAS OF EXCELLENCE

- Design Presentations
- Client Relations
- Technical Specifications
- Construction Documents
- Space Planning
- Sustainable Building Practices
- Materials/Finishes Selection
- Building Codes
- Proposals/Project Scope
- Certified AutoCad 2008

OBJECTIVE

Energetic, results driven architect with 12 years experience known for ability to innovate and implement successful designs. Looking for new challenges and career growth where I can apply my extensive knowledge and experiences in a progressive, growth oriented organization

CAREER SUMMARY

- High level of experience designing, executing and managing diverse sustainable construction projects incorporating **Green** technology when available
- Ability to multitask over several projects from initial client contact through design and build phases

EDUCATION

Bachelor of Science in Architecture
Lawrence Technological University
Southfield, MI
May, 2001

CAREER HIGHLIGHTS

Project Technician – Erie Architectural Products

May '12 – Present

Erie Architectural Products is a curtain wall fabricator, providing design / assist and design / build engineered solutions to commercial / industrial & institutional building customers. This includes the design, engineering, fabrication and delivery of sustainable engineered, knocked down, ladder, and unitized curtain walls, window walls, entrances, storefronts and skylight systems.

Project Manager – Damian Farrell Design Group

Jun '10 – May 12

Designer of innovative residential additions and remodeling ventures; current projects include Light Commercial projects, Multi-Million Dollar Residential Renovations + HUD Housing Development. Worked as the Client Liaison, attending design review meetings to assure accurate design implementation and served as the Field Project Controller assuring each project phase was completed to plan.

Senior Job Captain

Nov '07 – Jun '10

Pearson Architects, Inc. - Palm Desert, CA

Specialist in charge of designs and illustrations for multi-million dollar projects including a large Golf Resort, commercial real estate construction, several office buildings and office remodels, mixed use and civic projects. Managed project set ups, construction document control, RFI's, change orders and submittals. Worked as the Client Liaison, attending design review meetings to assure accurate design implementation and served as the Field Project Controller assuring each project phase was completed to plan. Team lead for advanced CAD design standards associated with all Designs, and all Software Reviews.

Job Captain

Nov '06 – Nov '07

DLR GROUR - WWCOT - Palm Springs, CA

Lead Job Captain responsible for complex project and field set-ups associated with commercial construction ventures. Coordinated all documentation associated with construction, RFI's, change orders and document submissions. Attended client meetings to assure project specifications and guidelines met customer requirements. Monitored field projects to assure project timelines, construction parameters, and design specifications were met.

Job Captain

Sep '05 – Nov '06

Holt Architects, Inc. - Rancho Mirage, CA

Job Captain responsible for office, mixed use, municipal and tenant improvements for commercial construction. Assisted project and construction site set-ups, designed and managed construction documents, administered RFI's, and managed change orders and document submissions for new projects and additions. Field inspected projects to assure construction accuracy to drawings and plans. Reviewed shop drawings and job specifications before and during project implementation, managing job specs and field processes.

Junior Job Captain

Feb '99 – Jun '03

Harley Ellis Devereaux - Southfield, MI

HarleyEllis specializes in Health Care, Cooperate + University construction. I helped construct floor plans, elevations, details + schedules for various projects. I was also in charge of several small projects with one or two interns under my supervision.
